**REQUEST FOR CERTIFICATE OF CORRECTION
OF OFFICE MISTAKE
(35 U.S.C. §254, 37 CFR §1.322)**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450
Attn: Certificate of Correction

Certificate
AUG 10 2005
of Corr

Dear Sir:

Attached is Form PTO-1050 (Certificate of Correction) at least one copy of which is suitable for printing. The errors together with the exact page and line number where the errors are shown correctly in the application file are as follows:

CLAIMS:

1. In line 1 of claim 15 (column 10, line 36) change "in claim 1" to --in claim 11--.
This appears correctly in Amendment A as filed on October 4, 2004, on page 5, paragraph 3, line 1, as claim 17.

AUG 11 2005

Patentee hereby requests expedited issuance of the Certificate of Correction because the error lies with the Office and because the error is clearly disclosed in the records of the Office. As required for expedited issuance, enclosed is documentation that unequivocally supports the patentee's assertion without needing reference to the patent file wrapper.

It is noted that the above-identified errors were printing errors that apparently occurred during the printing process. Accordingly, it is believed that no fees are due in connection with the filing of this Request for Certificate of Correction. However, if it is determined that any fees are due, the Commissioner is hereby authorized to charge such fees to Deposit Account 500388 (Order No. SUN1P804).

Respectfully submitted,
BEYER WEAVER & THOMAS, LLP

A handwritten signature in black ink, appearing to be 'A. S. Hodes', written over the printed name.

computer code for causing the static initializer to run, wherein the static initializer is caused to run by a second opcode.

15. (previsouly presented) A computer program product as recited in claim 14 further including:

computer code for resuming execution at the second opcode after the static initializer has run.

16. (cancelled)

17. (previsouly presented) A computer program product as recited in claim 12 wherein the native C code includes code for identifying the static initializer.
